VR Service Code	MISCELLANEOUS TRAINING - INTERNSHIP		
Service Description	<p>Internships are a very important element of the process. When companies hire they give more attention to individuals who complete internships because they know that they have gained certain real world experience and knowledge. Internships have been proven to increase a person’s chance for employment. Studies have found that individuals, who have completed internships, on average, make about 9% more than an individual who does not have the internship experience (national Associations of Colleges). An internship allows an individual to gain working knowledge, hands on experience, interviewing and negotiation skills, working and building relationships with coworkers and ability to manage time, schedule, and get a feel for their chosen field.</p> <p>VR staff may authorize for optional Wage Add On for a paid internship.</p>
